

Publications From Taylor's Group
Metal Containing Polymers
March, 2008

"Highly Reflective Polyimide Films Created by Supercritical Fluid Infusion of a Silver Additive", Boggess, R.K., Taylor, L.T., Stoakley, D.M., and St. Clair, A.K., J. Appl. Polym. Sci., 1997, 64, 1309.

"Supercritical Fluid Infusion of Silver into Polyimide Films of Varying Chemical Composition", Rosolovsky, J., Boggess, R.K., Taylor, L. T., Stoakley, D.M., and St. Clair, A.K., J. Mater. Res., 1997, 12, 3127.

"Metallized Poly(etherether ketone) Films Achieved by Supercritical Fluid Impregnation of a Silver Precursor Followed by Thermal Curing," Nazem, N., Taylor, L. T., and Rubira, A. F., J. Supercrit. Fluids, 2002, 23, 43.
